

Lieser Campus Program 2020-2021 Return-to-School Delivery Possibilities

The 2020-2021 school year will open in accordance with OSPI and DOH safety and health guidelines. Current guidelines require students to wear masks at school, and that schools maintain six foot distancing between students when in the classroom. This requirement will most likely result in the school year starting with a modified schedule. We may also have to provide remote instruction to students should they have to be quarantined for exposure to coronavirus.
