Elementary Onsite Instruction Program Details . . .

All classes are two days per week and require substantial time at home with parent partners to complete course objectives.

K - 6 students may be enrolled in up to 12 hours of classes on - site each week, including enrichment (Friday) classes. Parents will meet with Consultants through required Group Consultations or Individual Consultations.

Science and Social Studies academic block will rotate by day or by unit depending upon grade level.

Students must be scheduled in consecutive classes without a break in the schedule. If a student does not have a scheduled class there is not supervision provided for students by the school. Students must be supervised by parents.
